THE EASTERN QUESTION.

Text of England's Objection to the Treaty

LONDON April 2—The following is the ... of Lord Salisbury's circular to the powers in which he objects to the treaty of San Stefano as a whole

The combined effect of the treaty in ... upon the balance of maritime power which has been already pointed out is to depress almost to a point of entire subjection the political independence of the government of Constantinople The formal jurisdiction of that government extends over geographically ... which must ... circumstances be of the deepest interest to Great Britain. It is in the power of the Ottoman government to close or to open the straits which form the natural highway of nations between the Aegean Sea and the Euxine Its dominion is recognized at the head of the Persian Gulf on the shores of the Levant and in the immediate neighborhood of the Suez canal It cannot be otherwise than a matter of extreme solicitude to this country that the government to which this jurisdiction belongs should be closely pressed by political outposts of a greatly superior power that its independent action and even existence is almost impossible These results arise not so much from the language of any single article in the treaty as from the operation of the instrument as a whole A discussion limited to the articles selected by one power in the congress will be an illusory remedy for the dangers to English interests and to the permanent peace of Europe which would result from the state of things which the treaty proposes to establish

Senate

WASHINGTON April 2

Burnside called up as the special order the bill to remove all restrictions now existing in regard to enlistments of colored citizens in the army of the United States The bill was recommitted with an amendment proposed by Blaine that hereafter colored men shall have a full right to enlist in all arms of the service

The railroad funding bill came up as unfinished business and Morrill addressed the senate in support of the judiciary committee's bill

Morrill having concluded Thurman gave notice that he would offer an amendment making the first mortgage bonds of the companies one of the class of bonds in which the sinking fund proposed may be invested In relation to this difference of profit on the fund that the company if permitted to control it could make he thought this fund might be turned into the treasury like the naval pension fund and the Geneva award fund

Blaine said for the fifteen years he had been in congress the Pacific roads had been before congress in some form or other He had an ambition to survive this legislation but under the proposed bill there was no penalty Would it not be better to say exactly what was required of the roads and then let them rest So long as these subjects could be brought before congress congress would be made tail to the kite of Wall street Legislation was constantly proposed in order to affect the stock market in New York He did not think it contrary to the spirit of the bill to add a proviso that so long as the roads comply with the provisions of the acts of 1862 and 1864 and of this act it shall be taken as a full performance of their obligations As to the sinking fund let something be done to keep this from being a running sore for the next 15 or 20 years

Thurman said experience was the answer During the two years this subject had been before the senate he had never seen a lobbyist hostile to the roads If they were to be tied up for the next 20 years he wanted quite a different bill from this He would much prefer to let the law stand as it is than to tie up the hands of the government for the next 20 year

Blaine asked how it would be if this amendment was adopted in case the bonds should be stolen as in case of the Indian trust bonds in the interior department some years ago

Thurman said the Democrats would be in power in 1881 and then there would be no trouble about bonds being stolen

Blaine said it was when the senator's party was in power that the bonds were stolen It was the recollection of this fact that led him to make the inquiry

A discussion sprung up from this as to the responsibility for the sinking fund and different rates of interest between different bonds held as sinking funds and bonds issued to the company

Blaine said the managers of the road say that if permitted to create their own sinking fund they could make it pay a higher rate of interest It might be these men could do so with safety but they might not be there 20 years hence and under other management the bonds might take wings and fly away as the Indian bonds did Therefore it was a wise provision that the government should be the custodian of this fund but was there not a shade of equity in it

Edmunds argued that the position of the government was not as an antagonist but as an impartial tribunal which should judge and decide as the different questions arose It might be the business of the roads should be so conducted that it would be the duty of congress hereafter to require them to do more and different from what they do now As had been said by Thurman there had been no pressure of private interests on congress against these corporations He had heard of 20 cents a line paid for editorials in newspapers to influence legislation He supposed a higher rate was paid now What it was costing now they would find out before they get through

The senate went into executive session and adjourned

House

Saylor reported a bill to prevent default or delay in payment of interest on the 3 65 District of Columbia bonds It authorizes the secretary of the treasury to pay interest on such bonds as may fall due and directs the commissioners of the district to transfer into the U S treasury before June 15th of each year the sum advanced for the payment of interest from any revenue in the district subject to their requisition referred to committee of the whole

A joint resolution was adopted authorizing the commission having in charge the Washington monument to apply $36 000 to giving greater stability to the foundation

Cox of New York moved to lay the bill on the table defeated 41 to 88

The bill then passed

It was voted yeas 148 to nays 79 to take up for consideration the report of the committee on civil service reform in regard to the case of doorkeeper Polk

Harrison explained the report He said the Democracy was pledged to reform and would go before the country and say We will fight the Republicans who commit wrong but will spread whitewash over our friends He thought not. He read from the testimony to show that Polk had exceeded the law in his appointments

Luttrell Franklin Clark Flint Ellsworth and others harrassed him with questions and a great uproar succeeded accompanied by merriment

Harrison maintained his point however After his speech the house adjourned

Russian and Turk

The Rev Dr Schauffler, for fifty years a missionary of the American Board in Russia and Turkey lectured in New York on the two countries a fortnight since He gave the Turks unquestionable preference in regard to their liberality saying that it was a part of their religion not to persecute those who believe in other creeds Russia had always been an ... tyrant both ... political and religious ... Signed D KEARNEY
By H M MOORE Private Secretary

March 8—P M —N B —Mr Kearney has just come in with your letter to him of the 5th inst and has instructed me to assure you that he has the fullest confidence in your integrity and ability and to request you to pay no attention to the wild and inconsiderate talk of men who without waiting to be well posted as to your action go off half cocked The mass of thinking people believe in your honesty and determination to do right and will fully sustain your course as to the compensation The general belief is that $5 a day is nearer right for the workingmen to support than $10 Reform is the motto and we must be true to our principles If the expenses of the delegate are handsomely paid it is sufficient Very truly yours

The natural inference is that all of Kearney's grave talk to the workingmen about hanging Bones etc was more buncombe and that he has been playing a double game with them

Suicide

Turning over the Swag

Adjournment of the California Legislature.

SACRAMENTO April 2—The legislature adjourned at midnight A great number of spectators crowded both senate and assembly chambers during the evening In the assembly a number of presentations were made to officers from speaker down to subordinate employes The usual final nonsense was indulged in to a limited extent Among the bills reported approved by the governor were the following McCoppin's supplemental police bill appropriating $5 000 for the relief of sufferers by floods, four bills prepared by the insurance commissioners for the better protection of stockholders in corporations, and Hart's railroad bill

B F Tuttle of Sonoma, is to be appointed transportation commissioner under the Hart bill signed to day by the governor

A Beastly Crime.

STOCKTON April 2—The most beastly of all crimes was perpetrated about 7 o'clock last evening on the person of a little five year old girl, daughter of Mr Rossi proprietor of the Colombo House, by an Italian cook employed at the place a man 45 years of age The cries of the child brought the mother to her rescue Seizing a knife she pursued the wretch but unfortunately he eluded her reach and fled toward the tules Officers were notified and started in pursuit, but the beast was not captured at last accounts

Northern Pacific Railroad!

The Company Refuse to Accept the Senate Bill---A Counter Movement--The Whole Subject to be Taken Away from Mitchell's Committee and Given in Charge of the Committee on Public Lands.

[SPECIAL DISPATCH TO THE OREGONIAN]

WASHINGTON April 2—Some days ago the following protest against the bill before the senate committee purporting to extend the grant of the Northern Pacific railroad was presented

WASHINGTON March 23 1878

Hon ... Senator In behalf of the Northern Pacific Railroad Co and its ten thousand stockholders whose money to the amount of $30 000 000 is involved in the enterprise we beg leave through you to address the senate committee on railroads of which you are a member The bill before that committee is not for the benefit of this company but is antagonistic to its interests

First—The provisions respecting the lands within the limits of the grant are impracticable benefiting neither the settlers nor the government and destructive of the grant as a means of aid in the construction of the road

Second—The company is not in condition to accept the provision compelling construction to be commenced at Portland and to be thence continued eastwardly along the Columbia river to the head of navigation a distance of two hundred and fifty miles The work requires an expenditure of about thirty thousand dollars per mile or seven and a half millions of dollars on the bank of a great river navigable eleven months every year Such portion of the road would not pay operating expenses until the road penetrate the tributary country eastward It is not in the power of the Co to perform this requirement nor can capital be obtained for the purpose Money can be procured to push the road eastward from the head of navigation on the Columbia river through a fertile country where in anticipation of the early construction of the road, over a thousand proposed settlers have already filed applications for land

Third—We also earnestly protest against embodying in a bill for an extension of our time a proposed grant of land for another road We believe that this not only endangers but is certain to defeat the passage of any such bill

Fourth—The bill before the senate committee is in other respects objectionable and impracticable

We therefore beg that further action of your committee be deferred until a bill which has been carefully prepared by a committee of the house of representatives and is about to be reported to that body can be submitted for consideration

CHAS B WRIGHT, President
GEO STARK Vice President N P R R Co

Members of the company now here and others who are favorable to extension of their grant, also declare that the bill reported to the senate yesterday cannot be accepted by the company, but will be opposed at every stage In pursuance of this determination Senator Windom asked and was given leave to file a minority report yesterday Owing to the bitter hostility of Senator Mitchell to the Northern Pacific Company an effort will now be made to take the whole subject out of the committee on railroads of which he is chairman and with this view a copy of the bill matured by the house committee was yesterday introduced in the senate and a reference to the committee of that body on public lands was carried The company and its friends have resolved to take this course and will stand or fall by it declaring that it would be suicidal to accept the bill reported by the senate committee on railroads It is considered certain that this bill cannot pass Some of the senators who joined in reporting it only did so with the understanding that they were not to be considered as being committed to support it in the senate in its present shape The company claim that there is no excuse whatever for Mitchell's persistent opposition to their enterprise and determined efforts to defeat it since they have been at all times willing to make all reasonable and possible concessions to Oregon which would be consistent with any conditions on which it would be in their power to construct the road

England will Roar

[New York Graphic]

Russia—I want several provinces to square off my territory

England—Now I don't think that's right

Russia—I'm going to take those Turkish ships

England—Now, you shouldn't do that 'Tain't right

Russia—Let's see But that isn't near enough. I want two, or three, or twenty or thirty millions of rubles

England—By George, you'd better take Turkey and done with it

Russia—Don't know but what I shall Now there's Egypt

England—Now, if you touch Egypt I shan't like it I'll roar I can roar awful You'd better not make me roar

Russia—O roar and be ——! I think I'll cork up the Bosporus too

England—Now if you cork up the Bosporus I will roar I've got 400 000 roaring men. I——

Russia—Yes, I'll put a fort on the Bosporus

England—Now I'm going to commence to roar right away if you do that Austria will roar with me too won't you Austria?

Austria—I dunno I haven't roared for a good while I got awful sick the last time I roared at Germany Maybe I'll roar I'll see I'll think about it

England—Well I've a good mind to roar all by myself I declare it's shameful Why the man has no more conscience than a bear

Excitement in New Mexico.

The governor of New Mexico has deeply offended the ecclesiastics of that territory by vetoing a bill to repeal what is known as the "burial law" which prohibited the burial of the dead beneath the floors of churches Until the passage of the act two years ago it was the usual practice of the wealthy New Mexican Roman Catholics to bury their dead in the churches the price of a sepulcher ranging from $250 to $1,000, according to proximity to the altar When the ground under the floor was full of dead bodies, they were exhumed, and reinterred elsewhere—a practice which has been twice repeated in the parish church of Albuquerque The bill was passed over the governor's veto by an almost unanimous vote as was also another bill for ever exempting the property of the Society of Jesus from taxation though previously declared unconstitutional by the attorney general of the territory Congress will probably interfere

Probably Will Fail.

[From the Walla Walla Statesman]

A well-informed Washington correspondent writes us that we might as well give over all hope of the renewal of the land grant to the Northern Pacific Railroad Company He says the division in the ranks of the friends of the measure is fatal to the whole affair Mitchell's bill in the senate antagonizes the house bill which reflects the views of the company, and between the two the whole thing will fall to the ground

WEDNESDAY MORNING APRIL 3 1878

JAY GOULD'S BILL

The general tone of the press of the country fully justifies the statement of the St Paul *Pioneer Press* that the place in public attention occupied until recently by discussion of the silver bill is filled by a further measure of largest national importance [illegible] the effort to compel the [illegible] railroad [illegible] to obey the laws which they owe their existence. It is a battle which has been carried on sharply all winter in the lobbies, hotels and committee rooms of the national capital and recently it has emerged from these places of concealment, has been transferred to the senate and now for above a fortnight has been carried on under the public eye. Everybody has known that the most tremendous lobby ever gathered in Washington has been working in the interest of the roads in this matter. Nor has it been composed of obscure hirelings but has been organized and led by such magnates as Jay Gould himself. Acquainted with all the methods of the most slippery professional lobbyists, and having unrestrained command of the enormous financial resources of the most gigantic corporations on the continent they have been playing for a stake of tens of millions. Though it was known all winter that principals and agents were at work not until their bill was reported was it known just what they desired to accomplish. This bill releases the companies from all their original obligations and substitutes terms which debtor never had the cheek to offer creditor before. The New York *Railroad Gazette* summarizes the main features and objects of the bill in the statement that it is "an arrangement by which the companies are to pay interest only when the principal becomes due and get the benefit of interest on the enormous amount of accumulated interest." It is as if one should lend money at simple interest, interest and principal payable together after twenty two years and take as pay in small annual instalments on which compound interest is allowed. It may be thus illustrated

A man borrows a thousand dollars at 6 per cent, payable with accumulated interest, not compounded, in twenty five years. Then when the debt is due he will have to pay

Principal	$1 000
Twenty five years interest at 6 per cent	1,500
Total	$2 500

But the borrower lends this money at 6 per cent payable half yearly and reinvests the interest, that is, he forms a sinking fund with it which at the end of twenty five years amounts to $4 383 so that he pays the debt with the money he borrowed and has $1,883 left.

And this is the way in which this bill proposes to require payment of the prodigious debts of the railroad companies! These terms, be it understood are to take the place of provisions now on the statute book which require payment into the treasury of five per cent. of the net earnings of the roads and retention of one-half the amount earned by transportation performed for the government. Better, infinitely better, let the case with the roads stand as it is, for thus the government would lose far less. Or better even take Senator Thurman's proposition to give the companies the roads outright now rather than accept this scheme of elaborated fraud. The country is going to watch the vote in congress on this scheme. But it is believed that in spite of all efforts of the organized lobby the Thurman bill, which is a simple provision for the enforcement of the law and the contract will win. The strong men of the senate are all for it.

FURTHER MOVEMENTS

If anybody has been led to suppose that recent movements and events had brought us any nearer to a result on the railroad question, such person is likely to be undeceived by reading a dispatch which we print to-day. Not only do the Northern Pacific company and its friends refuse to accept the bill reported on Monday by the railroad committee of the senate—or rather by a bare majority of it—but they distinctly announce a purpose to oppose with all means in their power the passage of the bill. At the same time they have confidence that their strength is sufficient to defeat it. In pursuance of this purpose, Senator Windom's minority report was submitted; and at the same time a copy of the bill prepared by the house committee was introduced in the senate and referred to the committee on public lands. This last was an unusual and even extraordinary proceeding. The motion to refer to the committee on public lands was made evidently, with a purpose to take the subject out of the committee on railroads, where the company has been balked so long by the hostility of the senator from Oregon. That the senate voted to refer the bill to this committee is, under the circumstances a very plain indication that the railroad committee's bill cannot command the support of the senate. Of the committee on public lands Oglesby of Illinois is chairman, and he is known to be in favor of extending the Northern Pacific's grant. Grover is also a member of the committee. It is highly probable that from this committee a favorable report will be obtained. No disposition is evinced by the house committee to recede from the bill it so carefully prepared. Evidently the friends of this bill intend to make an effort to pass it notwithstanding Mitchell's opposition.

Here, then, is the situation. It is to be a fight to the end over the measure with a probability of entire failure of all propositions. Events so far not only do not justify Mr. Mitchell, but clearly indicate that if any bill is carried it must be carried over him. Otherwise Oregon will get no railroad. The present situation implies just that thing. There is no probability that any bill can pass against the determined opposition of the Northern Pacific and its supporters and these last movements show that the bill reported by the senate's railroad committee will be resolutely opposed and that the chances that it will ever become a law are not worth consideration as matters look now. In this antagonism there is very slight prospect of a railroad. It is probable that ultimate success can be obtained only through total overthrow of all the obstructions which Mitchell has set up and so industriously maintained. If that cannot be done there is little reason to hope for any result.

PRUDENTIAL CONSIDERATIONS

Certain small politicians and newspapers whose claim to ownership of the R[illegible] party it would be treason to dispute are making bitter warfare on several persons whom they suppose to be candidates for office for no other reason than they choose to regard them as THE OREGONIAN'S candidates. There is great waste of effort here. Why take so much unnecessary trouble? For their own peace the best thing these unhappy people can do is to settle upon the conclusion that THE OREGONIAN has not the smallest interest in anybody's nomination for any office. Our amiable friends are vexing themselves and not disturbing us in the least. And besides, if they would [illegible] to [illegible] it is barely possible they might want some help to elect their own candidates after they get them nominated they might see the propriety of discontinuing these attacks on persons whom they evidently want to put out of their way. A little prudence right here might save a good deal of disappointment hereafter. There is a fine chance for harmony in the party if we might judge from the course now being pursued. If we may not have the presumption [illegible] the leaders of the party [illegible] after the nominations are made.

The wheelhorse of politics had not begun to chafe in the harness already. It is yet two months till the election. And as there is going to be no [illegible] independent and every way [illegible] best for all concerned to make up their minds not to be ruffled by the event. Most of those who vote will propose to themselves distinct purposes. And knowing what they want to do they will shoot directly at the mark. Party names and nominations will be well enough if they suit, otherwise not.

Austria's coming to the front again and Russia afraid of a combination between Austria and England shows more disposition to negotiate. The Emperor Nicholas once said that the two greatest fools who ever had a share in the affairs of Europe were himself and John Sobieski, for each of them had saved Austria from extinction. Perhaps Emperor Alexander now occasionally muses on this observation.

Since the silver bill passed every town in the United States begins to assert its right to have a mint. And now since there is an impression that there are to be mints enough to go round, we want the Dalles mint finished.

A VERY LOUD COMPLAINT

A CITIZEN OF LAKE COUNTY TALKS ABOUT SWAMP LANDS AND A SWAMP LAND RING

MERGANSER March 30 1878

TO THE EDITOR OF THE OREGONIAN

As the time draws near when our state conventions meet to nominate candidates for state offices it behooves us who have a deep interest at stake in the coming election and but small chance to determine the selection of men to present our cause to our fellow citizens and ask them to heed somewhat the voice and accede to the requests of one of the state's weaker counties.

The cause which I wish to present is the cause of the people, the cause of the settlers as against the claims and schemes of the swamp land ring. The power of this corrupt and corrupting organization is little understood by the masses outside of those local ties where they have developed their strength to crush settlers.

The Grover government was the head centre of the ring and his elevation to the senatorship was largely due to its influence as they needed to succeed Kelly with another faithful member to insure the proper presentation of their claims to the land department at Washington.

Both were working actively in harmony with Republican members of the ring to secure favorable land offices in those districts where there was liable to be conflict with settlers.

Since Grover's promotion [illegible] going up his mantle as chief sachem seems to have fallen upon his successor in office.

We of Lake, hoped to have a candid and fair investigation of lands in controversy when we heard of Chadwick's contemplated visit last summer and parties saw him and offered to take him around to see the lands being contested for by the state that he being a *majority* of the state board and competent to withdraw the state's claim to land, if he deemed them unjust or invalid might judge for himself as to their swampy character. But no! He really hadn't time. In fact, he was under the surveillance, and in charge of two swamp land filers who dared not trust him out of their sight and influence. His conversation in the house of one of these claimants as overheard and reported by a man in the latter's employ in which he (Chadwick) told the swamp land claimant that he "had better take his plow and run a few furrows up and down his swamp land claim and then he could easily get a patent from the state" showed very clearly which way his hair lay.

We wish a change in the state administration, a change not from Democratic swamp land men to Republican swamp land men but a change from dishonest speculators to honest men, whether Democrats or Republicans is of really of less importance to us than that they should be men whose interests do not make them our enemies.

The people of Lake county are tired of the way this contemptible and unscrupulous ring have been conducting our state administration, tired of being taxed to carry on a war against ourselves to enrich those in whose interests the war is waged and who pay no taxes on the money they have invested in swamp lands nor on the lands themselves. We believe the time for silence and inaction is past, that the gang of public plunderers who first tried to steal state lands from settlers and finally by the aid of the state government commenced their robberies of government lands both occupied and unoccupied by claiming them as swamp should be broken up.

Since the organization of that ring the most corrupt and unprincipled gang of tricksters and demagogues that ever fed and fattened upon the spoils of public robbery or clung like leeches to both state and national offices have been turned to pasture upon us. And for what? To establish just claims? To gain honorable ends? Do the tools they use, the measures they resort to indicate a just or honorable cause?

The people feel that there is need of action. This swamp land question is of such deep and vital importance that it cannot be eliminated from the politics of Lake county.

No candidate for office can sit upon the fence to study upon which side to alight. The suspicion that he had peeped through the fence from one side would condemn him. We want to know who are our friends. All others are our enemies. Our friends must be outspoken and consistent in their friendship.

Cannot the enemies of fraud and corruption unite in selecting honest men for office. If they will our feeble aid can be relied upon to elect them.

O A STEARNS

Senator Eaton's Tariff Suggestion

[Reported to the Cincinnati Enquirer.]

No, of course Wood's bill won't pass. There are too many conflicting interests. No congress can formulate a wise tariff bill. It is impossible to keep demagogism or selfishness out of it. According to my notion there is only one way to get a wise tariff bill. Let the president appoint six commissioners, one to represent each of the leading interests, and each the best man who can be found to represent his interest. Let the six choose a seventh to have the casting vote who shall be thoroughly posted on the tariff, unbiased and a practical business man. Pay these commissioners a good salary, give them a year and let them visit all the leading commercial centers of the country and give hearings to the business men of every section. Then let them draw up a bill and report to the commissioner and we shall have some show to pass a wise tariff bill.

The Democratic Millennium not yet Here.

[From the Buffalo Courier Dem.]

Our political friends in every section of the country will do well to regard the New Hampshire election as a timely reminder that the effects of Republican dissensions should not be overestimated. The task before the Democracy is not an easy one. The Republicans will certainly make great efforts to elect a majority of the house of representatives next fall for the reason that if they should fail to do so the next congress will be Democratic in both branches. It might easily prove a fatal misfortune if our friends should be led by present successes to regard victory on a larger field as a foregone conclusion [illegible] as a result to be secured with great exertions and effective organization [illegible] harmony and prudence in the councils of the party.

CITY.

SURPRISE PARTY.—One of the pleasantest parties of the season was held at the residence of Prof R K W[illegible] last Monday evening. The occasion was the anniversary of [illegible] the professor [illegible] of his friends [illegible] dropped in headed by [illegible] was taken completely by surprise [illegible] He was [illegible] bouquets [illegible] soon made the [illegible] that it [illegible] and congratulations [illegible] the party was [illegible] refreshments came abundant [illegible] were. Some of the [illegible] the company with present and [illegible] will long remember [illegible] enjoyable occasion.

A BENEFIT [illegible] as well as the heathen [illegible] tricks that are vain where [illegible] he somewhat resembles our [illegible] Dame Rumor has it that one of our young promising lawyers suddenly took into his head that single blessedness did not [illegible] and in a fit of bashfulness [illegible] himself last evening to the classic shades of Oregon City without bidding good bye to his many friends here and the [illegible] that he in desperation took unto himself a better half.

GONE TO OLYMPIA.—The Rev T L Eliot has gone to Olympia where he will deliver two of his lectures which were so popular here. The lecture on Athens will be delivered on Thursday evening while Florence will be the theme on Friday evening. The lecturer will remain over Sunday exchanging pulpits with Rev D N Utter who is to occupy the pulpit of the Unitarian church in this city.

COMPETITIVE EXAMINATION.—There will be a competitive examination of applicants for admission to the military academy at West Point at the office of R H Lamson clerk of the United States court at 10 o'clock A M, on Wednesday the 10th of April. Young men who expect to enter for examination should bear this in mind and be promptly in attendance when the committee shall meet.

SCHOOL ELECTION.—At the annual school election held in East Portland Monday evening Mr N D Tomlinson was elected to serve as school clerk for the term of one year and J A Newell director for the period of three years. It was voted to levy a six mill tax on all taxable property in the district—one for educational purposes and five to finish the second story of the Central school building.

BOATS SOLD.—The *Telegram* says it is reported that Kinney Bros salmon cannery at Astoria will not run during the present season. On Saturday thirty of the one hundred fishing boats belonging to that establishment were sold at auction and brought an average of $150 each. They cost $225 each a year ago.

DIVINE SERVICE.—This (Wednesday) evening there will be a meeting at the Hall street M E church at 8 o'clock. Rev. I D Van Horn will conduct the services. A cordial invitation is extended to the public.

SANDWICH SOCIABLE.

The sandwich sociable at the Taylor street church last evening drew a perfect throng of people, old middle aged and young and all seemed bent on carrying out the objects of the assembling by having an hour's freedom from care and of unalloyed social intercourse. This was intermingled now and then with songs, recitations and instrumental music, all of which served to make the occasion more enjoyable. Dr Chance rather took the lead in managing the affair and all acknowledged that the right man was in the right place. The recitations while perfectly appropriate, were very amusing, and the music was excellent. First in the way of refreshments, napkins and leather medals were passed around by a lot of young ladies with caps made of paper. On the medals were printed "The Socialist."

> Would you yourself be rich, give others a show,
> Take nothing on trust but "pay as you go."

After the medals and napkins came genuine refreshments in the way of sandwiches, cakes coffee etc. of which all partook freely. Then the "pay as you go" principle came in, and Dr Chance and a young lady passed through the audience with a two bushel basket collecting the contributions of those present, which were by no means trifling. The dimes quarters halves and occasionally a dollar of the daddies dropped in very numerously. Then ice cream was offered to all who wished to partake the sociability and cheerfulness still increasing, and at a reasonably late hour the assemblage dispersed, all apparently well pleased with the entire affair.

QUARTERLY REPORT.

The following report, showing the police business for the quarter ending March 31 has been kindly furnished by Capt. Allen

PERSONAL.

Gen. Howard left New York yesterday bound west. He expects to arrive here about the middle of the present month.

H D Sanborn will be a passenger on the outgoing steamer which sails this morning. He goes below with the exposition stand and the remainder of the articles to be placed on exhibition and on arriving at San Francisco will superintend their shipment east and across the stormy Atlantic to sunny France. *Bon voyage.*

Messrs Sidney Dell and J H Reed have formed a law partnership in this city. Though both gentlemen are sufficiently known we take the occasion to say that this combination of natures and conceded abilities is an assurance of professional success. Judge Reed has returned from Southern Oregon having arranged his affairs in that locality, so that he will now be able to devote himself to business here.

ASSISTANCE DESIRED

At the school meeting held at Mt Tabor April 1 1878 and after the business of said district connected with their school was disposed of the following resolution [illegible] passed [illegible] unanimous vote of the whole audience

Resolved, That [illegible] B L Henness and [illegible] committee to confer [illegible] commissioners of this county [illegible] ascertain what amount they can [illegible] them. They are also instructed to solicit contributions from the vicinity [illegible] towards assisting our afflicted [illegible] paralysis [illegible] the necessary [illegible] obtained [illegible] Coughlin [illegible] elsewhere [illegible]

[WED]NESDAY MORNING, APRIL 3 1878.

CITY.

SURPRISE PARTY.—One of the pleasantest parties of the season was held at the residence of Prof. E. K. Warren on last Monday evening. The occasion was the anniversary of the professor's birthday About seventy five of his friends gathered in the evening at the residence of Mr Wadhams and at 8 o'clock, headed by that genial gentleman dropped in upon the professor. He was taken completely by surprise, and did not know whether it was an "April fool" or a birthday party. He was soon made the recipient of numerous bon puits and congratulations and convinced that it was no "April fool." The ladies of the party were abundantly provided with refreshments. Some of the leading vocalists of the city were present and entertained the company with some fine music. Those present will long remember the evening as a most enjoyable occasion.

A BENEDICT—PERHAPS.—Old Nick as well as the heathen Chinee, is up to tricks that are vain, wherein, proverbially he somewhat resembles our law fraternity Dame Rumor has it that one of our young promising lawyers suddenly took it into his head that single blessedness did not pan out very well and in a fit of bashfulness hied himself last evening to the classic shades of Oregon City without bidding good-bye to his many friends here and the presumption is that he in desperation, took unto himself a better half

GONE TO OLYMPIA.—The Rev T L Eliot has gone to Olympia, where he will deliver two of his lectures which were so popular here. The lecture on "Athens" will be delivered on Thursday evening while "Florence" will be the theme on Friday evening. The lecturer will remain over Sunday exchanging pulpits with Rev D N Utter who is to occupy the pulpit of the Unitarian church in this city.

COMPETITIVE EXAMINATION.—There will be a competitive examination of applicants for admission to the military academy at West Point at the office of R H Lamson clerk of the United States court at 10 o'clock A M on Wednesday, the 10th of April Young men who expect to enter for examination should bear this in mind, and be promptly in attendance, when the committee shall meet

SCHOOL ELECTION.—At the annual school election held in East Portland Monday evening, Mr. C. D. Tomlinson was elected to serve as school clerk for the term of one year and [illegible] Newell director for the period of three years. It was voted to levy a six mill tax on all taxable property in the district—one for educational purposes and five to finish the second story of the Central school building

BOATS SOLD.—The *Telegram* says it is reported that Kinney Bros.' salmon cannery at Astoria will not run during the present season. On Saturday, thirty of the one hundred fish boats belonging to that establishment were sold at auction and brought an average of $150 each. They cost $225 each a year ago

DIVINE SERVICE.—This (Wednesday) evening there will be a meeting at the Hall street M. E. church at 7 o'clock. Rev I. D. Van [illegible] will conduct the services A cordial invitation is extended to the public.

SANDWICH SOCIABLE.

The sandwich sociable at the Taylor street church last evening drew a perfect throng of people, old, middle aged and young, and all [illegible] in carrying out the objects of the sociable by having an hour's freedom [illegible] unalloyed social intercourse. This was interspersed now and then with vocal selections and instrumental music, all of which served to make the occasion more enjoyable. Dr. Chance rather took the lead in managing the affair, and all acknowledged that the right man was in the right place. The [illegible], while perfectly appropriate [illegible], and the music was excellent, but in the way of refreshments nay [illegible] medals were passed around by a few young ladies with caps made of [illegible] the medals were printed The [illegible]

[illegible] yourself be rich, give others a show,
[illegible] on trust, but "pay as you go

[illegible] and napkins, came general [illegible] in the way of sandwiches [illegible], of which all partook freely. The "pay as you go" principle came in [illegible] Dr. Chance and a young lady passed through the audience with a two bushel basket collecting the contributions of those present, which were by no means trifling The [illegible], knives, and occasionally a [illegible], dropped in very numerous. MISSIONS HOL[IDAY] EXHIBITION

[illegible]

The third annual exhibition of the [illegible] Chinese Mission School which was held at [illegible] evening in the [illegible] Church was a [illegible]

[illegible]

[illegible] one of the Chinese [illegible] Chinese in America says [illegible] the English alphabet [illegible] proves this to be the [illegible] During the [illegible] years of its existence nearly thirty Chinese have been hopefully converted to Christianity [illegible] shown by their [illegible] Christ and [illegible] that Christ Jesus [illegible] Saviour for the promise is unto you and to your children [illegible] many as the Lord our God shall call [illegible] full [illegible] it seems to me [illegible] call [illegible] of darkness in order that He might call them from nature's darkness into His marvelous light. The advantages for their Christianization here are far superior to what they are in their native land. In the mere matter of money alone it has cost by actual computation during the last three years one hundred dollars less for each and every one whom we believe has been regenerated here than it has for those who in our missions in China during the same time have obtained like precious faith One of our merchants asked yesterday in a very doubting tone of voice "Can you make anything of the Chinese?" If he meant to inquire if they could be Americanized we reply we neither know nor care That is not what this mission is striving to do It is striving to Christianize them and that too not simply for their own sake but for the sake of the millions whom they have left behind and to whom sooner or later they are sure to carry the word of life We regard this mission merely as a base of operations for working on Chinese and [illegible] asking the [illegible] of Portland to continue their support to this work We are not asking them to encourage Chinese [illegible] or Chinese immigration Rather the reverse as we promise to send back [illegible] with the riches of the gospel [illegible] here be won to the Saviour [illegible] usefulness in the ministry of the word and that too as speedily as they can be thoroughly equipped for this high calling

In proof of the fact that the Chinese mind is worthy of and capable of culture the following excerpts were read from a letter lately received by Mr Coats from a former student in the mission who is now preparing for the ministry in Kalamazoo College Michigan We give them exactly as written

Dear brother in Jesus I have come to Kalamazoo three weeks last Sunday night I hope you will overlook that I have not written to you before now Kalamazoo is a lovely town indeed It is called the "Queen Village" and is said to be the most beautiful town in the United States The people here are generally good and wealthy I do not mean that they are good because they are wealthy for there are many students of the college here who are poor yet they are good and I like them more because they are more agreeable and love the Lord more than riches Many of them too are preparing for the ministry They are very active Christians I feel very thankful that I have the privilege of being with them and that the Lord has called so many of them to be ministers of the gospel I hope some of them will be missionaries to China or some other country in Asia A Karen brother is studying here He will be a missionary to his own country after years His Christian character is an excellent one * * I stopped at San Francisco and Oakland three days including a Sabbath During these days I enjoyed myself very much in the service of the Lord The Chinese brethren of these places received me with exceedingly much brotherly love and kindness Brother B Browning of Oakland and these brothers have done very much for me I trust the Lord that He will pay them

STATE SUPERINTENDENCY

To THE EDITOR OF THE OREGONIAN

In behalf of our common schools than which no institution should be more zealously guarded by every friend of education I respectfully solicit a small space in your valuable columns for the purpose of noticing a correspondence in the *Statesman* of the 26th ult over the signature of Pro Bono Publico In which the writer suggests that Prof L J Powell of Albany be a suitable person on whom the nomination of state superintendent to confer

Having been a resident of this county for many years seven of which Prof Powell was superintendent of our common schools I most willingly endorse P B P's suggestion and the eulogium he pronounces on Prof Powell meets my hearty concurrence If the state be searched from the Columbia to the California line no man could be found in whose hands our schools would prosper better than in his He has been tried and found true Let us have him for our next state superintendent CLANDIS U

In order to magnify Gen Grant at the expense of President Hayes Senator Howe said in his recent speech

Even in these times of unbridled mendacity I would like to see the man bold enough to assert that any senator or combination of senators ever dictated the course of President Grant Should a man ever be called to the presidency so pusillanimous that he cannot discriminate between advice and dictation the sooner he quits the White House and lets himself for a coachman, the sooner he will let himself for that calling for which his temper best fits him

Lake of the Devil

[From the Seattle Dispatch]

About 60 miles from Seattle, and a few miles northeast of Porter's Prairie lies a large lake nestled at the foot of the mountains and between the foot hills Game is very abundant along its shores and the finest of mountain trout sport in its sparkling waters This lovely sheet of water was once the favorite resort of the Indians who visited it to hunt and fish and gather berries which were found in abundance. Many years ago a tribe of Indians visited this lake as they had done many times before and after spending the day in catching the speckled beauties from its waters, and chasing the fleet footed deer along the banks the tribe gathered around the camp fires as evening approached and partook of the fruits of the chase Their repast ended, they were lying about the fires contemplating the beautiful scene when suddenly the waters of the lake began to bubble and boil like a great cauldron The affrighted Indians sprang to their feet and made haste to leave the valley, but a new terror awaited them a heavy sound of thunder smote their ears and lightning came down from the mountains and consumed two thirds of the tribe Those who survived made their way from the place with all speed and soon reached a place of safety Since that night of terror no Indian can be persuaded to approach nearer than three miles to the lake believing as they do that this is the home of the devil and that the terrible destruction of the tribe was a direct manifestation of his displeasure at their having visited his retreat They have christened the place Enum Claw Chuck or Devil's Lake No white man is known to have ever seen this body of water but from the description given of it by Indians, it must be beautiful indeed Some persons in this city contemplate going to it the coming summer

THE PEOPLE'S [illegible]

Important Announcement.

SPRING GOODS!

IN ADDRESSING THE PUBLIC ON THIS OCcasion we do so with more confidence than at any time since our advent into business. Our career in business has been singularly successful having attained a degree of enviable notoriety for straightforward dealing selling goods at a slight margin on importers prices

Our STOCK for the Spring Trade is one of the best selected and the most comprehensive ever before offered to the people of Oregon—bought on the most advantageous terms and embracing every line in the trade

In disposing of this immense Stock our conduct shall be guided by the same golden rule as heretofore—**Honest dealing and the Smallest Living Profits.**

Our patrons embrace a large number of the Northwestern population and in sending out our

SPRING GREETING

we hope to see or hear from all our old friends and as many new ones as wish to avail themselves of this opportunity of purchasing goods cheaper than ever before offered in the Metropolis of the North west

Our facilities this year have been peculiarly favorable for purchasing having through our friends of the Bay City had the chance of picking up special lines suitable for this market at prices for which manufacturers could not begin to produce them This in a great measure is caused by the almost general stagnation of business in the leading markets of the United States and more directly affecting the Pacific States from the hard times they have had and are having In San Francisco The consequence is the merchants there must unload their heavy stocks and in many cases at a great sacrifice

Fully realizing the situation our MR KERRON launched out and purchased an

IMMENSE STOCK!

More than in ordinary times he would have been justified in buying but the low prices he obtained them at will enable us to spread them over this State and the Territories at such a reduction on old time prices as will convince the most skeptical that we mean business and business we

Must and Will Do!

It would be useless attempting to give a List of Prices Space does not warrant it. But we shall forward samples to any of our country friends who send for them

The public in dealing with us can place implicit faith in the fact that the lowest prices are asked All Goods are marked in plain figures from which there can be no deviation thus placing the inexperienced on equal terms with the experienced in the purchase of goods

Our country friends would do well to reap the advantage of an early inspection of our Warehouse It is incumbent on us to make room We are crowded and we must move goods off to make way for fresh contracts to arrive by every Steamer during all April

We have advices of a shipment of Goods from Glasgow direct now fully due and daily expected

SEMI SERIOUS MATTERS

The want of the age is condensed homeopathic drinks in the shape of pills so that a fellow can carry a happy drink in his vest pocket and become beastly without going out between acts and disturbing the congregation

Some of the newspapers are poking fun at Bayard Taylor Whitelaw Reid and other dam literary fellows" as good old Simon Cameron calls them who have outgrown their original names Bayard Taylor is known to the friends of his youth as Jim Taylor and Whitelaw Reid used to be called Jake by everybody

Said Mr Hallam the historian father of Hallam Tennyson the laureate's eldest son on the occasion of the christening Why not give the child your own name as well as mine? Why not call him Alfred Hallam Tennyson? For fear said the deep voiced bard— for fear he should turn out a fool Let his name be Hallam only

Rev David Keppel sets forth in the *Northern Christian Advocate* his views on hell He believes that hell is a well regulated prison in morality second only to heaven If the system of credits for good behavior obtains there, it isn't such a terrible place after all By helping to put out a fire for instance a prisoner might have a few thousand years knocked off his sentence or be fully pardoned and restored to heavenly citizenship

FINANCE AND COMMERCE

Financial

TUESDAY EVENING April 2, 1878

Gold in New York 101¼.

Legal tenders in Portland—buying 98 selling 99¾

Silver in Portland 3@4 per cent. discount

Locally financial matters change but little from day to day, and with some increase in the volume of transactions incident to the season the situation yesterday or last week is very nearly the situation to-day The splendid weather affording an opportunity for out door work, has somewhat stimulated the money market, as well as other branches of trade, and some even insist that it was only the dullness in trade which has prevailed for several months back which caused the depression in rates of interest noted, and that with revival of business which has been so often predicted and so long looked for but which comes so slowly, rates will stiffen and settle back to the figures hitherto ruling, if they do not advance. Were it not for the fact that the old rates in this state were always higher than elsewhere this might be expected but a material reduction might be made and still rates be higher proportionately than in other sections of the country

A San Francisco paper says the coinage of the new silver dollar will increase the silver supply but the immediate demand for it will have a tendency to sustain the value of fractional coins in the way of exchange the latter continuing a legal tender for only $5, and the two denominations occupying nearly the same position relatively, as fractional silver and gold now do The leading money brokers view the situation with inward satisfaction, for they will soon have four kinds of money to deal in three being unlimited legal tender and of entirely different character

Advices by mail indicate a slight improvement in business on the Atlantic coast and a more hopeful feeling exists regarding the future The home trade falls so far short of the usual average, however, that there is little prospect of bringing it up to the expectations at one time entertained, especially as the country merchants confine their purchases to their own wants, and the season is so far advanced but if honest trade is disappointing, the continued activity of the export trade is very gratifying, the outgo of food staples and manufactures being in excess of any former period in the nation's history. The brisk movement in all public securities has caused an increased demand for money, without affecting rates of interest Confidence is yet too weak to induce investments in new enterprises, and the present position of business affairs is a sort of self sustaining dullness, which requires little outside assistance Rates of money at New York are four to six per cent on sound collateral.

The Wheat Crops.

California journals have for some time been speculating upon the probable wheat surplus in that state, at the next harvest, but their predictions are of necessity modified with an "if" The "northers" which are so dreaded in that state have thus far not appeared, and if the spring passes without their disastrous visits, no danger is likely to arise to affect in any way the young crops One paper says of the crops in that state

The rains have not only been sufficient, with the showers that may be reasonably expected before the dry season sets in, to secure an abundant yield but they have been very general, and have come in such a way as to do the greatest amount of good while the snow in the mountains has been very heavy and will keep the streams filled well into the dry season. In the southern counties and in the San Joaquin valley, where the drouth was most severely felt last season, the farmers feel satisfied that their crops are secure In the latter section more particularly, where the bulk of the wheat is raised in good years, there is the best of reason to believe the yield will be immense

In the Sacramento valley the flood did great damage, but it is asserted that for one acre of wheat that was destroyed by the flood ten acres were gained in the uplands by the generous rains.

In all Oregon, as we learn from correspondents, from parties who have traveled all over the country and from our exchanges in different parts of the state, there is an unreserved opinion expressed that good crops will be harvested. The heavy rains have washed a few fields quite badly but the absence of freezing weather during the winter insured good crops on lands on which it has heretofore been difficult to secure a fair yield because of the freezing out process. The young plant looks unusually thrifty in all localities, and farmers have but little doubt of an abundant harvest This is especially true of those in eastern Oregon and those east of the Cascades in Washington territory, sections which are becoming yearly a more important factor in the grain trade of this part of the coast. While but few reports indicate any short-coming in the yield in this valley the highest encouragement for an unusually abundant harvest comes from the sections east of the Cascades. A number of the papers of this state have in a sort of incidental way placed the probable exports via the Columbia river for the next harvest year at ten million bushels, and while we believe the surplus which will find an outlet in that direction will show a large increase over former years, that figure is undoubtedly too high and 6 000 000 and 7 000 000 will in all probability be found more nearly correct

English Crops and Markets

LONDON April 2—The *Mark Lane Express* says reports concerning the wheat plant from all parts of the kingdom continue satisfactory The country trade is steady but not active The provincial markets are scantily supplied with home grown grain Imports of foreign wheat into London have been liberal A pressure to sell American wheat ex ship brought about a slight reduction in the value of this class of grain Russia is anxious to dispose of her produce and with her and America competing it is difficult to see whence the latter is to derive strength to enable prices to hold up India may be disregarded for the time as she cannot ship much wheat until the new crop is gathered but Germany has been steadily exporting to this country

Politics have once more monopolized the entire attention of the trade With fair arrivals at ports of call the floating cargo trade for wheat is firm Owing to a more unsettled state of political matters prices advanced 2 to 3 shillings per quarter The continental demand continues Maize improved 6d to 1s per quarter Barley ruled firm at 6d per quarter advance

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness

DR BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorrhea Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand and the patient need not fear the result.

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answer when filled out he can tell the disease as well as the proper treatment [illegible]
